

# Santa Claus is Gone

Large Print Lyrics Only p1

Intro

Well up on the rooftop there was oh such a clatter  
And I had to get up to see whatever was the matter  
I heard sounds from the chimney that the stockings hung  
upon  
I know that Santa Claus has been here, and now Santa Claus  
is gone

v1

Well, I've tracked him down for 1,000 miles – Santa Claus is  
gone  
Santa always makes us smile – Santa Claus is gone  
I've chased him down from East to West – Santa Claus is gone  
You know Santas always do it best – Santa Claus is gone

C1

Chorus  
Santa Claus has gone away, I hope he's coming back  
I saw him at the mall today, with his big red Santa sack  
Santa Claus has left this place, Where did that Santa go?  
There were bootprints in the fireplace, and I heard him Ho Ho  
Ho

v2

I've looked for him for weeks and weeks – Santa Claus is gone  
I love those big red rosy cheeks – Santa Claus is gone  
I know that you might find this weird – Santa Claus is Gone  
But I dig that long white hair and beard – Santa Claus is Gone

C2

Chorus

v3 He said “Love your neighbor as yourself” – Santa Claus is gone  
Even if your neighbor is an Elf” – Santa Claus is gone  
Santa sat there broken hearted – Santa Claus is gone  
It was getting late, and he must get started – Santa Claus is gone

C3 Chorus

Bridge

B I always like to know the truth  
And you know I ain't no super sleuth  
But you know I finally found my proof,  
There were reindeer droppings up on the roof
